## **DETAILED ACTION**

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 1, line 8, replace "stop" with --top--.

### ***Election/Restrictions***

Claim 8 has been rejoined with claims 1-7 and 9-17 to make the allowed claims 1-17.

### ***Reasons For Allowance***

Claims 1-17 have been allowed over the prior art.

The following is an examiner's statement of reasons for allowance: Prior art could not be located that taught package comprising a frame defining an opening between a top surface and a bottom surface, said bottom surface including an indented area where a thickness between the top surface and the bottom surface is thinner than in a non indented area of said bottom surface, said frame being adapted to accept in said

indented area an integrated circuit while reserving a portion of said opening between said indented area and said stop surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The art cited but not relied upon teaches the state of the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Zarneke whose telephone number is (571)-272-1937. The examiner can normally be reached on M-F 7:30 AM-6 PM.
